The Company’s business has continued to develop satisfactorily since the announcement of the interims on 25 November 2016 and the Directors are confident that they will report further progress on the Company’s strategy in June. In the absence of unforeseen circumstances, the Directors expect that profit before tax for the year ended 31 March 2017 will be around £1.5 million as compared to £863,000 in the previous year.
