

Sourcing the highest calibre candidates and delivering a digital difference

For over 30 years, Triad has been working in the private and public sectors to identify the right people and skills our clients need to achieve their digital goals.

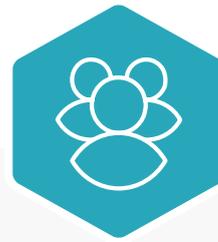

Triad provides the best practitioner-led resourcing expertise because we use only our consultants, experts in the relevant competencies, doing the job day in, day out to conduct tests and interviews. As a result, we only present candidates to our clients that we'd be happy hiring ourselves.

Not only can Triad bring you properly vetted and qualified candidates quickly, our track record of ensuring a hire is successful and your chosen candidate arrives on Day 1 is second to none.

We always get to know your business and ensure transparency throughout the process.

- Across all sectors, Triad is a leading provider of contract and permanent technical experts
- Our clients range from global giants recognised as industry leaders to new start-ups
- Our team is responsive and experienced with unique resourcing and digital services experience
- Our extensive candidate network includes exclusive relationships, cultivated over several decades
- Our onboarding process is managed entirely in-house using Agile best practice to ensure clients and candidates are up and running smoothly as quickly as possible.
- Our market leading approach consistently exceeds clients' expectations.

Triad makes it easier, quicker and more effective to fill your digital roles.

Finding you the right skills

Whether it is advice and guidance, project and product delivery, or additional capacity and expertise, Triad will find the right people to deliver your technology requirements.

As a resourcing specialist with strong technical roots, we have access to the highest calibre of candidates, from graduates to business leaders.

Triad regularly sources candidates with the following technical competencies:

- Enterprise and solution architecture
- DevOps engineering
- SecOps specialists
- Full stack software development
- Front and back end developers
- Manual and automation testing
- Data analytics and data science
- Business analysis and business architecture
- Scrum mastering and Agile coaching
- Programme & project management
- User research and content design
- User experience & user interface design

Customers trust us with their resourcing needs

“Triad took the time to understand our culture, and embrace our code of ethics, which means that the candidates they bring us have the right DNA. We trust Triad to help us find the ‘best fit’ candidate and keep us competitive in the recruitment market.

Triad’s collaborative approach has been a breath of fresh – we love working with them.”

Internal Systems Manager, **Leading estate agency**

Putting your needs first

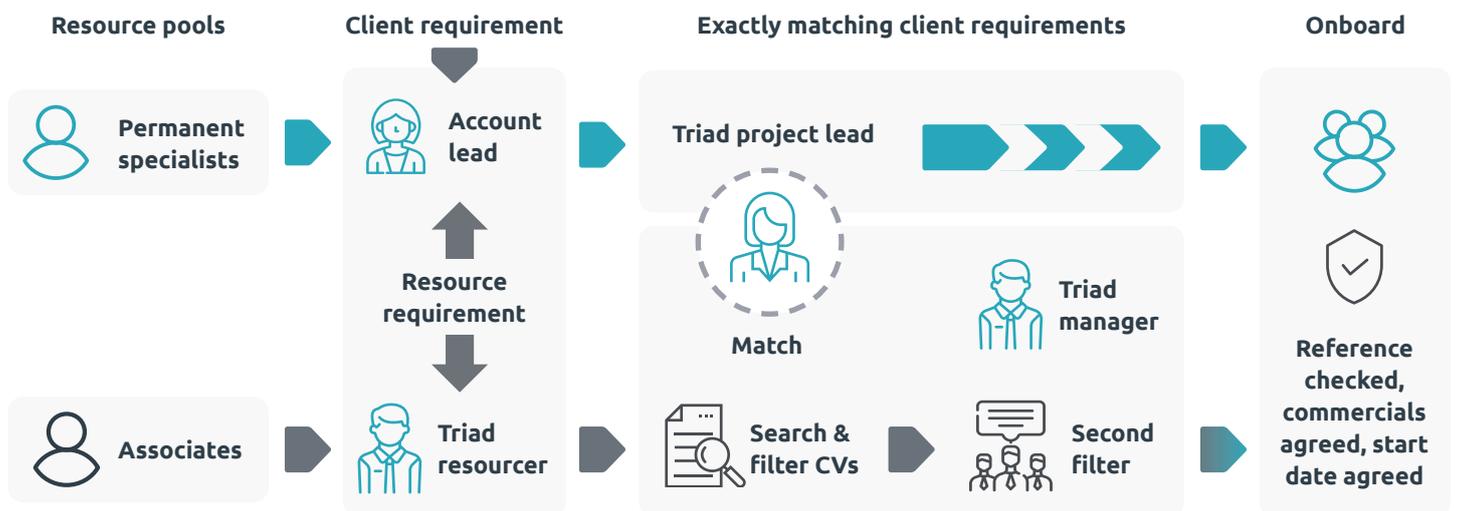

Triad has an impressive track record of providing resources that make our clients more competitive in their field.

Each assignment gives us the opportunity to enrich the digital skills of our clients and their teams and that's something we are passionate about.

We have mastered the art of thinking big and acting fast, focusing our clients on early and continuous ROI.

Our in-house delivery team's onboarding and vetting process delivers the best experience possible for both clients and candidates.
